

WOTRO Postdoc Project

Since 2002 WOTRO invites researchers from developing countries to apply for a postdoc project within the DC fellowship scheme. The DC Fellowship scheme aims to support high-quality PhD and postdoc projects executed by talented researchers from developing countries. The fellowship offers the candidate the opportunity to continue earlier collaboration and strengthen his or her research experience.

Since WOTRO wishes to encourage postdoctoral research, we kindly invite Dutch senior researchers to submit a postdoc proposal for their former WOTRO funded grantees.

The candidate researcher is required to have successfully finished a WOTRO PhD project and in the recent past was, or supervised, a PhD student from a developing country with a so-called DC Fellowship from WOTRO. Eligible candidates should hold a position in a local research institute in a developing country, guaranteed to be continued after the postdoc fellowship is completed. There are no restrictions with respect to the topic of the research for postdoc DC Fellows.

The deadline for preliminary proposals for the 2005 competition is 15 April 2004. After evaluation and ranking by the Advisory Committee, 20 applicants (PhD and postdoc) will be invited to submit a final, more elaborated application. ◀
